

Technology of Participation (ToP)[®] Facilitation Methods

Master three proven facilitation methods that ensure group participation and creativity. Practice during "on-your-feet" sessions. These methods . . .

- Identify and bring attention to areas of agreement, strengthen cohesiveness
Increase productivity, save time & money
Deepen commitment to decisions and plans
Help groups discover & inject their own motivation

Focused Conversation Method

Consensus Workshop Method

Action Planning Process

Design questions to facilitate a meaningful exchange of ideas. Involve everyone in thinking through difficult or intriguing issues.
- Lead a group from facts to insights & on to solid decisions
- Invite new ideas & solutions
- Make good use of time

Experience a brainstorm process that honors everyone's ideas. Combine all ideas into decisions everyone can and will support.
- Tap rational and intuitive thought processes
- Generate realistic solutions
- Reach reliable consensus

Develop a practical plan that organizes all needed actions. Gain commitment to implement.
- Define the positive outcome
- Take stock of current reality
- Maximize group involvement and shared responsibility
